EXPERIENCE INSIGHT

AW139 Redelivery Preparation

Appointed in Q2 2018 by a European bank to prepare the forthcoming redelivery of an offshore configured AW139 leased to a major helicopter operator

Our turn-key package included (i) full appraisal of the helicopter, (ii) verification of compliance with redelivery conditions and (iii) drawing up strategies for remarketing upon redelivery.

Our **proactive** and preventive **approach** to asset management **minimised pitfalls** and enabled the financier to make informed risk management decisions.
