

# King Air 350i Annual Appraisal Case Study

Since Q3 2015 onwards, **The Sharpwings** has been advising a European bank in financing a pre-owned King Air 350i through an operating lease and then managing the lease

---

Our comprehensive management package included (i) aircraft pre-purchase **inspection**, (ii) support to **negotiate** the **purchase** and operating lease agreements, (iii) registration transfer and (iv) **delivery**.

Our on-going **annual** on-lease **appraisals** of the aircraft since then enable an **informed approach towards risk management** by the lessor.
